

Chris Axelsson

Axelsson Metalsmith
P.O. Box 22-2598
Carmel, CA 93922
(408) 624-3909

Fine metalworking skills have been achieved to offer the highest standards in reviving period ironwork and fashioning contemporary designs. Chris Axelsson's work is hand-forged and lends an organic quality to materials such as iron, copper and bronze.

Honored with five Gold Metals from the National Ornamental Metals Association, the artist's private and corporate commissions include sculpture, lighting, gates and furniture. A line of fine furnishings is offered in the form of tables, beds, lamps, candleabras and fireplace implements. Logos or business themes can be incorporated into the artist's sculpture, wall pieces or security grills.

Complete costs of forged architectural works average \$125-\$250 per sq. ft. Axelsson is capable of working closely with architects, owners and design firms. Installation is available nationwide. A 2-3 month design and production period is required for major commissions.

Inquiries are welcomed.
